

Syllabus Fall 12 (BIOL 200)

Course Title: Human Anatomy & Physiology I
BIOL 200 CRN: 10075 Credits: 4

Instructor: Dr. Tom Morrell

Office: Room 410

Office Phone: (760) 355-6148

Email: thomas.morrell@imperial.edu

Personal Website: www.imperial.edu/~thomas.morrell

Office Hours:

Monday 5:50 - 6:50 pm

Tuesday 4:45 - 5:45

Wednesday 5:50 - 6:50

Thursday 4:45 - 5:45

If for some reason you not see me during my scheduled office hours, please call or stop by, or email me to arrange a meeting. I have an open door policy and my office is always open, so feel free to stop by anytime.

Class days, Time, Room:

Lecture - Monday/Wednesday, 8:05 - 9:00 am, Rm. 2737

Lab - Monday/Wednesday, 9:10 am - 12:20 pm, Rm. 2737

Class Description

This is an intensive lecture and lab course designed to study the fundamental principles of human anatomy and physiology at the cellular, tissue, organ and systems level of organization. The course may includes pig and organ dissection, study of the human skeleton, structural and functional relationships, and an appreciation of related human diseases and aging. Additionally, this course may include human cadaver dissection. **Prerequisites include** Math 090, and CHEM 100 and BIOL 100 with a grade of "C" or better, **or** MATH 090 with a grade of "C" or better and

a current California LVN license.

Required Text Book

Saladin, Kenneth. 2012. **Anatomy and Physiology: The unity of form and function** (6th edition). McGraw Hill Publisher

ISBN-13: 978-0-07-757534-2

ISBN-10: 0-07-757534-2

The ISBN provided are for the paperback version of the book found in the bookstore. You can probably obtain a hardcover copy cheaper on line.

AND

Marieb, E., and S. Mitchell. **Human Anatomy and Physiology Laboratory Manual** (Fetal Pig Version). 10th Edition. Pearson Publishing

ISBN13: 9780321616135

Attendance Policy

Attendance is required. You are responsible for all material presented during lecture and lab sessions. If for some reason you can't attend a lecture, quiz or an exam, it is your responsibility to approach me as soon as possible to determine if you have missed something important, and whether you can make it up. In order to make up missed opportunities you must **provide a signed medical or legal excuse** to document your absence. Students must realize that some labs, "in-class lab assignments," and particularly lab practical exams **CANNOT** be made up (regardless of the activity that resulted in the absence, or whether its an excused absence). Some labs and lab practical exams require numerous hours to prepare and/or require cooperative student participation. Thus, attendance is mandatory at all labs. **All research indicates that there is a strong positive correlation between class attendance and good grades (i.e., those who attend class get better grades than those who skip class).**

Class attendance and tardy policy follows regulations set forth in the IVC catalog. Additionally, the IVC catalog states "disruption of a class can result in disciplinary action." I consider coming into class tardy - a disruption. Any student tardy/absent 4 times (in any combination) will be considered a disturbing element in class and will be directed to student services for disciplinary action. This includes being tardy following any announced breaks during class or lab. **You are allowed one unexcused tardy.** After one tardy you must wait outside of class until the class takes a break. Please note that personal issues, such as family obligations, family situations, border slowdowns, babysitters, railroad crossings, job interviews, car problems, taking family members to appointments, and work schedules are not acceptable excuses for an absence or a tardy. Additionally, leaving class or lab before it has been officially dismissed will be regarded as as an unexcused absence. Should you miss both components of a given lecture you will be recorded as absent (even if you attend the lab).

It is the responsibility of the student to fill out the necessary paperwork if he/she no longer attends the class. In order for a student to "officially" drop the course he/she must fill out the proper paperwork. If this is not done a semester grade of "F" will be assigned.

Honor Policy

Imperial Valley College students must conduct themselves in accordance with the highest standards of academic honesty and integrity. Academic dishonesty by a student will not be tolerated. Cheating, plagiarism or violations of copyright policies are a form of academic dishonesty and are treated as an ethics violation.

Grading

If I see you checking your cell phone for ANY reason, or if your cell phone rings, vibrates, buzzes, flashes or blinks during lecture or during lab (even if it is in your backpack, pocket, or purse!) I will ask you to leave the class for that day and you will be recorded as absent. Rest assured, I will provide you plenty of breaks that enable you to address all of your cell phone and social networking needs. You can provide your children's day care, and/or family health care providers the number of the IVC front office, and the front office can contact you in class in the event of an emergency.

Your course grade will be based on 5 lecture exams, 5 lab practical exams, lab and lecture quizzes (some unannounced), and assignments.

- 5 lab practical exams (80 points each approximately)
- 5 lecture exams to cover lectures, textbook, CD-roms, videos, and other lecture/lab materials (80 points each approximately - the final will be partially comprehensive and be worth approximately 160 points.
- 5 - 10 Quizzes (5 - 20 points ea. approximately)
- 5 - 10 Homework and lab assignments (10 - 50 points ea. approximately)

Total = 1,000 points (approximate)

Grades will be assigned according to the following scale:

- >90% = A
- 80 - 89.9% = B
- 70 - 79.9% = C
- 60 - 69.9% = D
- <59.9% = F

I do not accept late homework without a signed legal or medical excuse.

Learning Disabilities and Special Accommodations

Any student with a documented disability who may need educational accommodations should notify the instructor or the Disabled Student Program and Services (DSP&S) office as soon as possible (DSP&S, Room 2177, Health Sciences Building (760 355-6312).

If you have emergency medical information to share with me, or if you need special arrangements in the event the building must be evacuated, please let me know during the first week of class.

Course Objectives

1. The student will list the characteristics of the human organism and describe the body's organization, regions, and cavities.
2. The student will describe the structure and explain the function of the cell membrane, cytoplasm, nucleus and associated organelles. The student will describe genetic regulation and protein synthesis.
3. The student will list and describe the types, function, and locations of the different tissues in the body.
4. The student will describe the structure of the integumentary system and derivatives and will explain their functions.
5. The student will explain bone formation and functions. The student will also recall the names and location of selected skeletal parts and describe the various types of articulations.
6. The student will explain the molecular theories of muscle contraction and will recall the names, location and actions of selected muscles.
7. The student will explain transmission and regulation of nerve impulses. The student will describe the structure and function of the human brain, spinal cord, and sensory organs.

Student Learning Outcomes

1. Display critical thought related to topics in Human Anatomy using examination.
2. Identify the anatomy and display comprehension of the physiology of the dermis.
3. Display critical thought associated with the functioning of the skeletal muscle system during an exercise in personal responsibility.
4. Display critical thought related to current topics in human anatomy as it applies to a global perspective.

[A & P 1 Schedule Fall 12 Morrell Morning & Afternoon.pdf](#)

WK	DAY	DATE	LECTURE	MATERIALS NEEDED
1	Mon.	8-20	Introduction to class	Nothing needed

	Wed.	8-22	Cha. 1 Introduction to A & P	Sm. Human models & lg. Torso models
2	Mon.	8-27	Cha. 2 Chemical basis of life	CD#27 The chemistry of living things – models from w
	Wed.	8-29	Cha. 2 Chemical basis of life	CD#27 The chemistry of living things – models from w
3	Mon.	9-3	HOLIDAY	
	Wed.	9-5	Cha. 3 Cellular form and function	Microscopes, clean slides, H ₂ O water eye droppers, and ml physiologic solution. Thistle tube Osmosis Experiment solution, distilled water. 8 500 ml beakers, dialysis tubi droppers. All previous labs.
4	Mon.	9-10	Exam and Lab Practical 1	All previous lab models and posters
	Wed.	9-12	Cha 4. Genetics and cellular function	CD# 36 From DNA to protein synthesis – DNA Necklace
5	Mon.	9-17	Cha. 4 Genetics and cellular function	CD# 42 Mitosis
	Wed.	9-19	Cha. 5 Histology	Prepared slides: Connective tissue (Areolar, Adipose, R Irregular, Elastic, Hyaline Cartilage, Fibrocartilage, Elast Lymph; Epithelial Tissue: Simple epithelium (squamous epithelium (squamous, cuboidal, columnar), Glandular Nervous Tissue: Neuron Smears; Muscle Tissue: Cardia Animal cells and Tissues
6	Mon.	9-24	Cha. 5 Histology	Same as 9-19
	Wed.	9-26	Cha. 6 Integumentary system	Skin models and everything from 9-24
7	Mon.	10-1	Exam and Lab Practical 2	Everything from 9/26
	Wed.	10-3	Cha. 7 Bone tissue	Bone tissue models, skulls, bone boxes, skeletons (big tissue slides & and all skin models and slides

WK	DAY	DATE	LECTURE	MATERIALS NEEDED
8	Mon.	10-8	Cha. 8 (Axial skeleton)	Same as 10-3
	Wed.	10-10	Cha. 8 (Appendicular skeleton)	Same as 10-3
9	Mon.	10-15	Cha. 9 Joints	Same as 10-3
	Wed.	10-17	Cha. 11 Muscle Tissue (Pt. 1)	All muscle tissue slides and models, & everything from
10	Mon.	10-22	Exam & Lab Practical 3	Everything from 10-17
	Wed.	10-24	Cha. 11 Muscle Systems	All muscle tissue slides and models
11	Mon.	10-29	Cha. 11 Muscle Tissue (Pt. 2)	BIOPAC and muscle tissue slides and models
	Wed.	10-31	Cha. 12 Nervous tissue	All neuron and nervous system models & slides and all
12	Mon.	11-5	Cha. 12 cont.	Everything from 10-31
	Wed.	11-7	Cha. 13. Spinal Cord	Spinal cord models and models with spinal nerves. Spi everything from 11-5
13	Mon.	11-12	Veterans Day - HOLIDAY	
	Wed.	11-14	Exam & Lab Practical 4	Everything from 11-7
14	Mon.	11-19	Cha. 14 Brain	Brain and spinal cord models
	Wed.	11-21	Cha. 14 Brain	BIOPAC & everything from 11-19
15	Mon.	11-26	Cha. 15 Autonomic nervous system	Models with autonomic nervous system and everything

	Wed.	11-28	Cha. 16 Sensory Organs (Pt.1)	Eye, ear models, Sensory stimuli rubber hammers, tuning fork, discrimination calipers, 8 250 ml flasks,, 30 q-tips, colorimeter (Hot plate, and tub of ice) reaction time rulers, field of vision from 11-26
16	Mon.	12-3	Cha. 16 (Pt. 2)	Eye & ear models & everything from 11-28
	Wed.	12-5	FINAL EXAM	Everything from 12 -3
