### Course Requirements and Instructional Methods Teaching Strategy:

The instructor will generally be teaching with a voice off approach. This will increase your receptive comprehension. You will be participating in a variety of class exercises designed to increase both your receptive and expressive skills. Please arrive to class on time, ready to start signing. We will be introducing new vocabulary weekly, and then applying it through a variety of exercises. **You MUST practice outside of class.** We will also be learning new grammatical structures weekly as we go through the chapters of the book. You will be asked to prepare some ASL assignments outside of class; you will be given clear instructions to follow to produce successful assignments. You may have to sign individually to your instructor, or in small groups, or in front of the class. We will have presentations this semester, as well as signing labs, small group work, and larger group work.
