All of the Module Learning Units will be accessible from the Course Menu. Each Learning Unit will be numbered in the sequence.

Most Units lasts one week. You can read explanations of each Unit, and the course work required for the Unit, by clicking the provided link on the course Home page or via the Modules link in the course menu.

(Unless otherwise stated, Units will be active for 1 week and the due dates for Unit work will be on the following Monday evening @ 11:59 PM)

Please keep in mind that, late work cannot be submitted after the due date and time-On the due date of each Unit, the Assignments, Discussions, and Quizzes required in that Unit will close and cease to be accessible.

Assignment will allow you a grace period, but you will be penalized for each day submitted after the due date so you don't want to get behind.

You will still be able to see the Units throughout the semester for review.

All assignments have a rubric by which the student can view what is required to receive the highest grade on that assignment.

Course Assessments:

This Canvas class is divided into Module 'Units' of study, and within each unit are individual content areas which focus on a specific area of learning within the Unit. Each Learning Unit contains various activities and tasks. Each Unit may require you to do reading in the course text, view course videos, engage in Discussions, and/or complete an Assignment--It is critical that you stay current with work for each Unit- Students who get behind in their coursework often end up failing the course as a result

Exams and Quizzes

Exams will be based on content from course text and lecture, and will consist of multiple choice, true/false and short answer questions. Each exam is worth approximately 30 points. A study guide

will be proved before each test. Each test will have a time-limit, and once begun, each test must be completed within the specified time limit.

Quizzes: *There will be a 5 point quiz for each of the test sections. These quizzes are basic and intended to help you review the material and introduce you to the type of questions you will see in the exams. However, they may not be the exact questions in the exams. The quizzes will open near the beginning of the Unit and close on the due date of the Unit.*

No late quizzes or Exams are allowed. You can take as long as you want on the quizzes, but you can only submit it for grading on. Every student has the same chance to prepare for quizzes and exams. If you miss a quiz and have extra time to study, it is unfair to those students who took the quiz on time. In order to make up a test, quiz or assignment you must show proof for the absence (doctor's note, hospitalization paperwork, etc.) and it must be approved by the instructor. Regardless of the reason for a missed quiz, all missed quizzes and tests must be made up within a week of when your class took that quiz. A missed assignment or test is considered an "F" and no points will be given. Plan your schedule to allow for ample study time so you will be prepared. There is no penalty for taking a quiz or test before the scheduled time.

Discussions:

Discussions: *A total of 3 Discussion submissions will be required for the course. Each Discussion will center on a topic question posed by the instructor, and will primarily ask for your opinion related to the question or to the responses of other students.*

Your Discussion response will be graded on whether it is a well thought out response, that it is clear from your response that you did the reading, and that your opinion is based on evidence from your readings or a thoughtful response of another student's post.

You should respond when you have something to say and don't be afraid to engage in an argument, just remember that you need to be respectful to all students.

Take care to make sure your responses all well-supported, and free of grammatical errors.

If any student uses inappropriate language or is disrespectful to another student, that student will lose points and need to have a personal conversation with the instructor.

Because actively reading and responding to the Discussions posted by your fellow students is essential, after the due date and time, the Discussion will be locked, and you will not be able to post a response. No exceptions will be made on these deadlines.

Assignments:

Reflection/ Journal *requires students to reflect in writing on their life experiences, and to examine personal positions relevant to a wide-range of child, family and community related issues. Four sets of questions will be offered through the semester, with each set related to current course readings. Students will post their reflection /Discussion entries onto the course Canvas webpage. (Rubric will be supplied)*

Family Share requires students to create, and present to the class, a family tree. In addition, students are required to address, in writing, a series of questions related to dynamics of their family system, such as: family communication style, approach to discipline, emotional expression, traditions, family strengths and family challenges. After completion of the activity, each student will submit a written personal reflection, addressing both the challenges and rewards related to planning and executing the activity. Each group is also required to document their activity with photos and video, and create a slide presentation to share with the class. (Note : this assignment is subject to modification related to Covid restriction)

Community Resource Report requires students to research a local community resource agency, and to create a report to share with the class that addresses the basic services provided by the agency and related issues such as: qualifications, fees, location, hours of operation and affiliations. Students will be assigned a community resource agency by the instructor. Each student will present their finding to the class, utilizing slides or poster board and will also post a written report to share on the course webpage.(Rubrics will be supplied)

Research Paper requires students to write and in-depth examination of a topic pertaining to the course subject- Each student will explore a separate topic area determined by the instructor. Students are required to incorporated professional sources into their paper, and the paper is to be written following APA style. (Rubric will be supplied)

No assignments or projects will be accepted late. They are due on the date assigned

A note regarding course Assignments: A total of 6 Assignment submissions will be required for the course. The structure of the Assignments may vary (for example, personal reflection or topic research) but all will be submitted in the same manner.

I would suggest you type your Assignments in Word, save them on your computer, and then cut and paste into the Assignments area on Canvas. You can save your work in the Assignment tool as a draft, if you are not ready to submit it yet, BUT you must remember to go back and click the submit button before the deadline or you will not be able to submit it at all. If you chose to submit your work as an attachment, make sure it is in MS Word, or a text file.

Out of Class Assignments: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time and two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.

Course Grading Based on Course Objectives

[Course Grade: The course grade is based on total points accumulated during the semester. . Grades are determined by dividing the total points you earn by the total points available (to get your percentage). I will use the grad-book on Canvas, but it is a good idea to keep your own records to compare with your instructor's records. The grade-book on Canvas my not always show the correct total.

There are no make-up exams, unless you have a very good reason and make arrangements with the instructor before the exam.

Students are expected to do all course work outlined in each Lesson. The course work will consist of :

<i>Class Assignment</i>	<i>Point Values</i>
