CIS 155
Flash CS6
Spring 2013
CRN: 20530
3 Credits

Instructor: Andres David Martinez

Course Description

CIS 155 provides a comprehensive yet concise introduction to the Flash. The course begins with a discussion of fundamental concepts, which provide a context for learning and set the stage for specific Flash skill development. A series of step-by-step tutorials follows, covering the range of basic to intermediate skills, including creating animations, using special effects, drawing objects, incorporating sound and video, and using ActionScript. Ultimately, advanced skills and techniques will be explored along with coverage of the updated features of Flash - such as enhancements to the workspace, positioning and working with objects in 3D spaces, producing interactive movies and navigation systems, importing Photoshop and Illustrator files, the Flash planning and workflow processes, and the Help feature- make this course an indispensable experience for anyone who wants to take full advantage of the program.

Course Objectives

1. Recognize, locate, and navigate through all aspects of the new CS4 user interface.
2. Create, manipulate, and edit text and graphics to obtain desired graphical outcomes.
3. Understand, create, and edit symbols, filters and instances in 3D spaces.
4. Design, create, edit, and manipulate animation using several animation tools and techniques.
5. Utilize tweens and articulated motions with inverse kinematics to morph shapes.
6. Design, create, and edit a flash-based navigation menus and interactive movies.
7. Utilize and understand sound and sound formats in flash movies.
8. Explain and utilize components to create interactivity.
9. Load, control, and remove movie clips and masks in movie content.
10. Publish flash movies in numerous formats and contexts in a professional and web-friendly manner.

Student Learning Outcomes

1. Utilize several Flash tools and tactics learned throughout the course to produce an interactive flash-based website.
2. Demonstrate the ability to effectively utilize the timeline and motion tween affects to produce animation.
