Course Syllabus

Spring 2013

DSPS 058 Computer Access Projects (20953)

Instructor: Paige Lovitt Phone: 355-6406 Room 2110

3 Credit Units

Course Description:

Instructor permission is required. The course is designed for students with a disability who require access to specialized adaptive technologies in order to complete assignments in other classes which they are concurrently enrolled. (Non-transferable, non-degree applicable).

Course Outcomes:

1. Instructor will assist students with determining their appropriate hardware and software needs.
2. Students will improve on their typing skills and basic computer skills.
3. Students will be able to complete assignments for classes which they are concurrently enrolled in utilizing the adaptive software.
4. Students will be responsible for logging into the High Tech Center to record their hours so that they can receive credit for this course. Instructor will demonstrate the process to the students and they will ask for assistance as needed. By the end of the semester, 100% of students will be logging into the lab independently or be responsible for requesting assistance from instructor or lab assistants.
5. To improve communication between IVC personnel and student, the student will be taught to create a personal email address. They will be taught how to add it to their personal information on Webstar.
6. Student will demonstrate knowledge of how to use their email address by sending an email to their DSPS 58 instructor before the completion of their hours.

Course Goals:

Students will be able to accurately complete homework assignments for their classes utilizing the High Tech Center resources

Required Text:

None

Grading:

Attendance and completion of 72 hours to receive credit. Students must have hours completed by Wednesday, May 8, 2013.
