Course Description:

This course is an introduction to MATLAB. MATLAB will be used to perform tasks in Algebra, Calculus, Linear Algebra, Differential Equations and Engineering.

Student Learning Outcomes:

Compute the solution to a system of equations using an algorithm.

Course Objectives:

Write programs using MATLAB Use-pre-existing MATLAB programs Use commands and syntax

Attendance and Absences:

If you are 5 minutes late you will be marked absent. Do not make doctor, counseling, or any appointments during class time. Leaving during lecture will be considered an unexcused absence. If you have to leave anytime during class, other than established break times, you must inform your instructor. After the third unexcused absence, you will be dropped from the class. In other cases, it is your responsibility to drop yourself before the withdrawal deadline. Disruptive and inconsiderate behavior will not be tolerated!

Cheating and Plagiarism

Dishonesty in the classroom is considered a very serious offense. Any form of cheating, turning in work which is not one's own (plagiarism), is grounds for disciplinary action. The consequences of these actions are severe and may include the possibility of expulsion.

Silence pagers and cell phones. Use of cell phones in the class room will not be permitted; you should not bring one into the classroom unless the ringer is turned OFF.
