## Course Requirements and Instructional Methods

The instructor will generally be teaching with a non-voice approach. This will increase your receptive comprehension. You will participate in a variety of class exercises designed to increase both your receptive and expressive skills. New vocabulary will be introduced weekly and applied through a variety of exercises. Students will learn grammatical structures weekly as units in the book are completed. ASL assignments will require to be done inside and outside of class. Clear instructions will be given by the instructor to produce successful assignments. Students will sign with instructor, in small groups, or in front of the class. During lecture, students will be given specific exercises to focus on to improve your signing skills. All presentations will be signed. You must practice outside of class.

<u>Out of Class Assignments</u>: The Department of Education policy states that one (1) credit hour is the amount of student work that reasonably approximates not less than one hour of class time <u>and</u> two (2) hours of out-of-class time per week over the span of a semester. WASC has adopted a similar requirement.
