Required text:

Master ASL! Fingerspelling, Numbers and Glossing. J. Zinza. ISBN: 1-881133-21-4.

Course Requirements and Instructional Methods

Teaching Strategy:

The instructor will generally be teaching with a voice on approach, although some voice off periods will occur. During those times your focus will be on receptively understanding the fingerspelling or numbers produced, not the signs. This will increase your receptive comprehension. You will be participating in a variety of class exercises designed to increase both your receptive and expressive skills. Please arrive to class on time, ready to start signing. We will be introducing new patterns weekly, and then applying them through a variety of exercises. **You MUST practice outside of class.** We will also be learning new grammatical structures weekly as we go through the chapters of the book. You will be asked to prepare some ASL assignments outside of class; you will be given clear instructions to follow to produce successful assignments. You may have to sign individually to your instructor, or in small groups, or in front of the class. We will have lab in class weekly, with a complete voice off period. During lab, you will be given specific exercises to focus on to improve your signing skills. We will also be signing in front of the class this semester.

Course Grading Based on Course Objectives

Grading will be based on a standard distribution (i.e., 90-100% = A, 80-89.9% = B). There will be 1,000 points possible during the course. No extra credit will be given.

Participation	300 (includes participation, no voice, following class rules)
Homework	150 (includes written and signed homework and packet)
Exams	250 (3 exams, from 75-100 points each)
Quizzes	150
Interactive final	50 (signing one on one with the instructor)
Improvement	100 (from baseline, determined by the instructor during the second week of class)

TOTAL 1,000
