COURSE DESCRIPTION

This course is designed to be an introduction to American government, its historical foundations, institutions and political processes. We will examine how our political system was designed, how it has changed over time and how public opinion, the media and the "information age" have affected our government institutions and public policy. You will learn the role and scope of government as the Founders conceived it, and as it is viewed today. Finally, we will examine current policy issues, weigh the costs and benefits of actions and engage in thoughtful discussion of contemporary policies and actions with a view toward how those issues and actions impact the current political scene. To achieve these objectives, I have chosen a textbook that focuses attention on the role of citizens as key actors in the democratic experiment that we call the United States of America.

Writing Assignment

Here are the info and prompt for your paper. Your papers are **due on Monday, November 6th**. the papers should be a minimum of 3 FULL pages, BUT no more than 5 pages. You will need a "work cited" page.

Prompt: You are to select a topic of interest from the questions listed below (See the end of this document). Once you pick a topic-- BE SPECIFIC, you must decide what approach you want to use to analyze your research, for example; comparative analysis, such as, comparing democratic system vs. non-democratic systems, or liberalism vs conservatism, or socialism vs communism, etc. You could also do a position paper, where you research a topic like abortion, climate change, racism, socialism, etc., and you can write your paper based on how you feel about the issue or subject-- In this case you must show both sides of the issue, though you are only supporting one side of the argument. You can also do a general analysis paper, just analyzing an issue without taking a position.

Quizzes

Students are required to complete weekly chapter quizzes for the Barbour textbook. The quizzes directly relate to the chapter content and are utilized to help you prepare for the course exams.

Exams

There will be two midterm exams and a final exam. Each will be a combination of multiple choice, true/false, fill-in's, identifications, and/or short answers. The exams are designed to test your familiarity with the lecture material, reading assignments, and your independent ability to apply what you have learned.

- Put a subject in the subject box that describes the email content with your name, week and message subject. For example YOURNAMEWK2ASSIGNMENT.
- Send email only to "Inbox" and not my personal email account.
- Do not send messages asking general information about the class, please post those in the QUESTION FORUM.

- Make certain to check your messages frequently.

ATTENDANCE POLICY

Students are expected to attend all class sessions and to arrive to class on time, with all electronic devices turned off and put away. Since participation in classroom work and discussion is an important part of this course, students missing more than three class sessions will have **10 points deducted** from their total points for each unexcused absence thereafter. Students who are consistently late will have to meet with me. Absences attributed to the representation of the college at officially approved conferences and contests and attendance upon field trips will not be counted as absences.

LEAVING CLASS: Students are expected to remain in the classroom throughout the entire class session. Students leaving the class early, without obtaining approval from the instructor prior to the start of class, will be counted absent for the day.

CELL PHONES and ELECTRONIC DEVICES: Cell phones and electronic devices must be turned off and put away during class, with the exception of laptops or tablets for note taking purposes **only**. Students violating this policy during a class period will receive one warning, after which, there will be a full grade deduction for each offence, and you will be removed from class. Also, students caught doing non-course

related work during class will get one warning; a 2nd offense will result in **one full letter grade deduction** from your final grade.

MAKEUP AND LATE WORK: The scheduled dates of all exams and written assignments are clearly indicated in this syllabus. No make-up exams or late papers will be accepted or permitted without my prior approval. Also, if you miss an exam you must provide documentation to explain your absence—I will decide if a makeup will be allowed.

CLASSROOM ETTIQUITE

Students are expected to conduct themselves in a manner befitting a college instructor.

- **Electronic Devices:** Cell phones and electronic devices must be turned off and put away during class, unless otherwise directed by the instructor.
- **Food and Drink** is prohibited in all classrooms. Water bottles with lids/caps are the only exception.
- **Disruptive Students:** Students who disrupt or interfere with a class may be sent out of the room and told to meet with the Campus Disciplinary Officer before returning to continue with coursework.
- **Children in the classroom:** Due to college rules and state laws, no one who is not enrolled in the class may attend, including children.

WEBSITE AND TECHNICAL TOOLS

The Canvas learning management system will be used to deliver the online course. Students need consistent and reliable access to the Internet, preferably using the Chrome, Firefox or Safari web browsers. Students without reliable Internet access should contact their counselor to create a plan to access the course daily.

TIME MANAGEMENT

Online courses require a considerable amount of time. You are expected to follow the pacing guidelines outlined by your teacher. You are not required to log-in to the course at a set interval, time, or day.

However, to be successful in the course, you should plan to spend near five hours per week actively engaged in the class. The amount of time you spend on coursework will vary depending on your skill level and knowledge in a variety of areas. While on vacation or other activities, you are expected to adhere to your instructors pacing guidelines. **MAKEUP AND LATE WORK:** The scheduled dates of all exams, quizzes, and written assignments are clearly indicated in this syllabus. No make-up exams or late papers will be accepted without my prior approval.

NETIQUETTE

What is netiquette? Simply stated, it's network etiquette -- that is, the etiquette of cyberspace. In other words, Netiquette is a set of rules for behaving properly online. Classes with an online component require the use of good netiquette.

Many online courses use discussion forums. Here are four tips for good netiquette in an online discussion.

1. It's typically a good idea to address the person you're responding to by name, just as if you were speaking to them face-to-face. It's also a good idea to sign your posting. This will make your online discussion more personal, and remind you to be polite!
2. Use care when interacting online, since you don't have the ability to gauge a person's reaction or feelings as you do in a face-to-face conversation. Particularly, humor and sarcasm should always be used very carefully and where needed, labeled as such.
3. It may be ok to disagree with someone depending on your professor's direction for the assignment if you give good reasons for doing so. Remember that people are perfectly entitled to debate both sides of a course idea or topic, and that reasoned argument is an important part of a college education. Your response should never ever attack someone personally. You can disagree with someone, and they with you while remaining respectful.
4. Identify your sources if you use quotes, references, or resources. Your work must always be distinctively your own writing unless you have indicated otherwise.

ACADEMIC HONESTY POLICY

IVC expects honesty and integrity from all students. Anyone caught cheating will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Campus Disciplinary Officer, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action. Cheating is defined as fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Acts of cheating include, but are not limited to the following:

- Plagiarism is defined as taking and presenting, as one's own the writings or ideas of others, without citing the source. You should understand the concept of plagiarism and keep it in mind when taking exams and preparing written materials. If you do not understand how to 'cite a source' correctly, you must ask for help.
- Copying or attempting to copy from others during an examination or on an assignment.
- Communicating test information with another person during an examination.
- Allowing others to do an assignment or portion of an assignment.
- Using a commercial term paper service.
